

70" PRO SERIES™ TOOL BOX

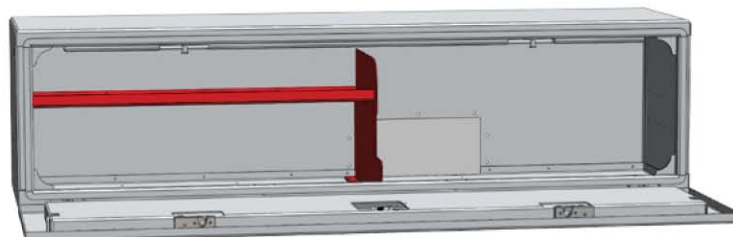

This is our big boy at 70" long, 18" deep and 18" tall you have one of the largest boxes in the industry. We were still able to use a single door handle on such a large tool box door by looking to the automotive industry. We install two rotary strikers inside of the door to keep the door closed and sealed from the weather. Our 70" Aluminum Box comes with two oval light mounting brackets already installed. Like all of our Pro Series™ Tool Boxes, the 70" comes pre-drilled for most In The Ditch™ accessories.

48" PRO SERIES™ TOOL BOX

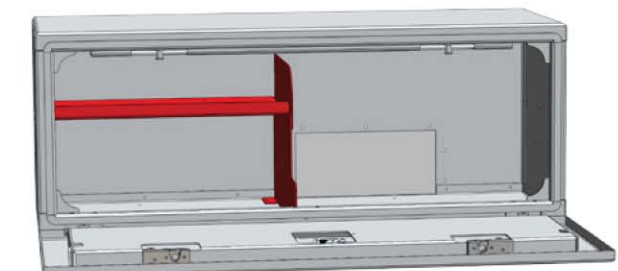

The 48" Pro Series™ Tool Box has proven to be the right sized box for many applications. At 48" long, 18" tall and 18" deep you get lots of storage in a box that will fit just about anywhere. This box comes with a single latch but has two internal rotary door strikers to keep the door securely closed and sealed from the weather. This 48" tool box also comes with one oval light mounting bracket already installed. Like all of our Pro Series™ Tool Boxes this aluminum box has a replaceable stainless steel front and is pre-drilled for most In The Ditch™ accessories.
