TOWING PRODUCTS

DESIGNED FOR PROFESSIONAL USE

A Door that Supports You

We designed these boxes for those that make their living with their truck on the side of the busiest highways, DAY IN AND DAY OUT. That's why there is a 400 lb. weight rating on the door.

Lock and Unlock Easily

The Power Lock option can also be wired into your truck's electric door locks, so you can auto lock and auto unlock your Pro Series™ boxes when you unlock truck doors. When you unlock the toolboxes, you can also wire them, so the toolbox lights come on.

Remote Control Locking Option

With just a single push of the wireless remote control. No need to waste time walking around and locking each box, no more struggling to see the lock at night, no more dealing with frozen locks, just push the button.

Single Paddle Door Handle Dual Stage Rotary Latches

We thought of everything to make your time on the side of the road efficient. The last thing you want to do is drop your straps or chains down in the mud to open your toolbox door.
