

NEW **WORKMAN** **SERIES™** **TOOLBOXES**

- 14 Ga Mirror Finish Stainless-Steel Door Panel
- Stainless-Steel Latches
- Heavy-Duty Stainless-Steel Hinges
- Drip Edge & Gasket For Moisture Defense
- Available in Various Sizes

← **SIZES : 36" / 48" / 60" / 70"** →

Get the same build quality as our Pro Series™ toolboxes in a lighter, more cost-effective Workman Series™ package.

These toolboxes are designed for everyday use, with simplified features for those who don't need all the extras. While they don't come with pre-drilled mounting holes, they're compatible with most In The Ditch® accessories.

Featuring an automotive-style gasket, integrated drip tray, and a 14-gauge stainless-steel door with a mirrored finish. Durable latches and reliable hinges ensure better performance in harsh conditions compared to competitors' plastic latches and piano hinges.
